Research Interests

Land-atmosphere interactions. Climate dynamics. Terrestrial surface energy budget. Land impacts on the global energy budget. Earth system modeling & idealized modeling. Land use impacts on the climate system. Atmospheric feedbacks. Terrestrial controls on atmospheric water vapour. Vegetation impacts on the hydrologic cycle.

Current Position

JULY 2022-PRESENT **Adjunct Assistant Professor**
Department of Atmospheric Sciences
University of Utah
Salt Lake City, UT, USA

AUGUST 2022 - PRESENT **Research Associate**
Coldwater Lab, Center for Hydrology
University of Saskatchewan
Canmore, Alberta, Canada

Previous Positions

MARCH 2021-AUGUST 2022 **James S. McDonnell Foundation Postdoctoral Fellow in**

Dynamic and Multiscale Systems
Coldwater Lab, Center for Hydrology
University of Saskatchewan
Canmore, Alberta, Canada
Host: Dr. Martyn Clark

DEC. 2020-FEB. 2021 **Visiting Research Fellow**
Coldwater Lab
University of Saskatchewan Center for Hydrology
Canmore, Alberta, Canada
Host: Dr. Martyn Clark

OCT. 2019-DEC. 2020 **James S. McDonnell Foundation Postdoctoral Fellow in**
Dynamic and Multiscale Systems
University of California, Berkeley
Department of Earth & Planetary Science
Berkeley, CA, USA
Host: Dr. William Boos

Education

- 2019 PhD, Atmospheric Sciences
University of Washington
Seattle, WA, USA
Department of Atmospheric Sciences
Advisor: Dr. Abigail Swann
Supervisory committee: Abigail Swann, Gordon Bonan, Cecilia Bitz, David Battisti,
Dargan Frierson, Gerard Roe
Dissertation: *Quantifying the role of individual surface properties on atmospheric feedbacks and land-atmosphere interactions*
- 2018 MSc, Applied Mathematics
University of Washington
Seattle, WA, USA
- 2016 MSc, Atmospheric Sciences
University of Washington
Seattle, WA, USA
Thesis: *Progressive Mid-latitude Afforestation: Local and Remote Climate Impacts in the Framework of Two Coupled Earth System Models*
- 2013 BSc, Honours Mathematics
University of British Columbia
Vancouver, BC, Canada

Diversity, Equity, & Inclusion Activities

2022	<i>Course – “Four Seasons of Reconciliation.”</i> Multi-week Canadian Indigenous anti-racist education in line with the Truth and Reconciliation Commission’s 94 Calls to Action, University of Saskatchewan.
2022	<i>Computational Hydrology Diversity, Equity, & Inclusion Committee</i>
2021	<i>Workshop – “Speaking Up: How Bystanders Can Change the Conversation about Social Bias and PowerPlay Interactive Development.”</i> Equity, Diversity, and Inclusion for Global Water Futures at the University of Saskatchewan. Participated in 2-part interactive workshop on interrupting bias.
2014-2019	<i>Girls in Science instructor, Burke Museum of Natural History, Seattle, WA.</i> Helped lead 1-3 sessions per year of hands-on lab activities for middle-school aged girls in a women-only environment.
2014-2019	<i>University of Washington Department of Atmospheric Sciences Outreach Group.</i> Visited schools to give atmospheric science demos and short talks on weather/climate; led visiting school groups on tours of the UW Atmospheric Sciences Department rooftop observatory.
2016-2019	<i>Diversity and Inclusion Group at the Department of Atmospheric Sciences, University of Washington.</i> Founding member of a graduate-student led group (involving students, staff, and faculty) focussed on tackling projects relating to diversity, equity, and inclusion within our department; my particular focus was on arranging for counsellors to the department to give presentations and facilitate discussions relating to depression, anxiety, and mental health in graduate school.

Teaching

2022	ADVANCED CLIMATE DYNAMICS COURSES (ACDC) SUMMER SCHOOL, RONDVASSBU, NORWAY Invited Lecturer/Instructor: Summer school theme – “The Global Water Cycle”.
2022	DALHOUSIE UNIVERSITY

- Guest Lecturer:** Environmental Science (Undergraduate)
- 2021 OREGON STATE UNIVERSITY
Guest Lecturer: Climate Data Analysis (Undergraduate)
- 2020 WESTERN WASHINGTON UNIVERSITY
Guest Lecturer: Forest loss and climate change for a “Global Change” graduate course.
- 2020 UNIVERSITY OF CALIFORNIA, BERKELEY
Teaching workshop: Pathways to Scientific Teaching Workshop
Participated in a hands-on, two-day workshop on incorporating active learning techniques into teaching in the sciences. Workshop covered theory and resources related to scientifically proven learning methods, and had us (workshop participants) develop and demonstrate examples of teaching with conceptual models.
- 2019 ADVANCED CLIMATE DYNAMICS COURSES (ACDC) SUMMER SCHOOL, YOSEMITE, CA
Invited Lecturer/Instructor: Summer school theme – “The Anthropocene”.
Lectured on land-atmosphere interactions, climate controls on vegetation distributions, vegetation impacts on atmospheric processes, historical vegetation change, projections of future vegetation change, and how vegetation may interact differently with the climate under higher CO₂; discussed vegetation-atmosphere-climate interactions in the field.
- 2017-2019 UNIVERSITY OF WASHINGTON, SEATTLE, WA
Guest Lecturer: *Advanced Physical Climatology* (graduate); *Ecological Climatology* (undergraduate/graduate); *Exploring the Atmospheric Sciences* (undergraduate)
- 2019 UNIVERSITY OF WASHINGTON, SEATTLE, WA
Interim Advisor; Department of Atmospheric Sciences
Supervised and assisted with two research projects of two first-year graduate students while their PhD advisor was away for 6 months. Met weekly with the students; helped troubleshoot and guide research. This has led to one student-led publication in *Journal of Climate*, and one student-led publication currently in preparation.
- 2017-2019 UNIVERSITY OF WASHINGTON, SEATTLE, WA
Graduate student advisor to two undergraduate research students; Department of Atmospheric Sciences
Developed and executed a research project involving two undergraduate students and my PhD advisor. I met at least weekly with the undergraduates, sometimes with, sometimes without my PhD advisor, and would frequently have more informal/drop-in meetings with the students. I had an open door policy, and helped the students learn python, learn to run, debug, and use a global Earth system model, analyze results, write AGU abstracts, learn to write scientific manuscripts and respond to reviewer comments. This led to an undergraduate-led journal publication in *Geophysical Research Letters*. Both then-undergraduates are from under-represented backgrounds in STEM; one was a first-generation college student person of colour, while the other is a woman. Both students went on to graduate school in the Earth sciences.
- 2014-2019 BURKE MUSEUM OF NATURAL HISTORY, SEATTLE, WA
Instructor: Girls in Science (middle-school);
Led groups of 6-20 middle-school girls through hands-on lab activities exploring the role of vegetation and the carbon cycle in the climate system. Introduced ideas and facilitated discussion relating to plants and climate over 4-8 hour sessions.
- 2016 NATIONAL CENTER FOR ATMOSPHERIC RESEARCH, BOULDER, CO
Instructor: CLM Tutorial
Developed and delivered the lecture on “Modifying the code in CLM”; helped students set up and run CESM in practical sessions.

- 2014 UNIVERSITY OF WASHINGTON, SEATTLE, WA
Teaching Assistant: *Global Warming: Understanding the Issues* (undergraduate)
 Developed homework and test material; grading; developed material for and taught 1-hour “discussion sections” of roughly 20 students each, 4 1-hour sessions per week.
- 2012 UNIVERSITY OF BRITISH COLUMBIA, VANCOUVER, BC
Teaching Assistant: *Differential Calculus* (undergraduate)
 Taught mini-lectures on example problems at weekly 3-hour “workshop” classes, where students would be given an example problem, then a longer problem that we all worked through as a group (roughly 30 people per class), followed by time to work on a longer, more complicated problem in groups of 4. I would go from group to group to help them develop problem solving skills. After an hour of working through their problem in small groups, the groups would report back to the class to share their approach and solution.

Service & Outreach

- 2019 Instructor for the Advanced Climate Dynamics Courses summer school, *Yosemite, CA*
- 2014-2019 Girls in Science outreach program, Burke Museum of Natural History, *Seattle, WA*
- 2017-2019 Mentoring undergraduate & early graduate students in Atmospheric Science, *Seattle, WA*
- 2014-2019 Outreach activities with the UW Department of Atmospheric Sciences, *Seattle, WA*
- 2016-2019 Diversity and Inclusion Group, Department of Atmospheric Sciences, University of Washington, *Seattle, WA*
- 2016-2018 Founding member of the Program on Climate Change Graduate Student Steering Committee, University of Washington, *Seattle, WA*
- 2016 Chair of the 10th Annual Graduate Climate Conference (GCC10) Organizing Committee, *Seattle, WA*
- 2016 Community Land Model (CLM) 2016 Tutorial instructor, *Boulder, CO*
- 2010-2012 Undergraduate Mathematics Volunteer Tutoring, *Vancouver, BC, Canada*
- 2012 East Kootenay Regional Science Fair Judge, *Cranbrook, BC, Canada*
